Section 7. Product Labeling Information:

Do all hearing aid-compatible handsets include labeling?

Yes ☐   *No* ☒ X

If no, please explain. Information regarding hearing aid compatibility is available on the iwireless website, and subscribers can easily view only the handsets that are hearing aid compatible by checking the appropriate box in the handset selection menu. Thus, customers are aware which handsets are hearing aid compatible prior to ordering their phones, and there is no customer confusion as the Company does not have any retail stores. Furthermore, information on hearing aid compatible handsets is available at http://www.iwireless.com/customer_support-hearing_aid.asp. All compliant handsets are labeled in accordance with the FCC's rules, except for the following:

Nokia 6061 –Boxes are not labeled. The manufacturer refuses to send labels for the boxes. However, the manufacturer states that all newer products will have information on packaging. Inserts regarding hearing aid compatibility are included in the boxes, and additional information is available on the iwireless website for viewing prior to ordering.

Sony Ericsson Z310 – Boxes are not labeled. The manufacturer refuses to send labels for the boxes. However, the manufacturer states that all newer products will have information on packaging. Inserts regarding hearing aid compatibility are included in the boxes, and additional information is available on the iwireless website for viewing prior to ordering.

Sony Ericsson W580 – Boxes are not labeled. The manufacturer refuses to send labels for the boxes. However, the manufacturer states that all newer products will have information on packaging. Inserts regarding hearing aid compatibility are included in the boxes, and additional information is available on the iwireless website for viewing prior to ordering.

Do all hearing aid-compatible handsets with the Wi-Fi air interface have clear and effective disclosure that the handset has not been tested for hearing aid compatibility with respect to its Wi-Fi voice operation?

Yes ☐   *No* ☐

If no, please explain. Not applicable. The Company cannot order any Wi-Fi hearing aid-compatible handsets at this time through iwireless.

Section 8. Public Website:

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system?

Yes ☐   No ☒ X

If yes, please provide the address for the public website.

If no, please explain. The Company is a small rural carrier that does not have the resources to maintain an extensive website. The Company orders phones for customers through iwireless, and customers that require additional information are referred to iwireless's website at http://www.iwireless.com/customer_support-hearing_aid.asp.

Section 9. Describe Consumer Outreach Efforts in the Past 12 Months:
The Company is a small rural carrier, and it does not have any retail stores where it can post hearing aid-compatibility information or make brochures available to customers. However, brochures and other relevant materials are available at the Company's main office in town. The Company makes information available to customers on an as-needed basis, and it refers customers that need information on hearing aid compatible handsets to iwireless's website at http://www.iwireless.com/customer_support-hearing_aid.asp.

Section 10. (Service Providers Only) Describe the Levels of Functionality into Which the Compliant Handsets Fall and Provide An Explanation of the Service Provider's Methodology for Determining Levels of Functionality:

Each handset model is described by its capabilities regarding features and functionalities. The categories of functionality levels are as follows:

- Basic handsets - Entry level handsets that are offered for low cost or free.
- Featured handsets - Handsets with more advanced capabilities.
- Smartphones/PDAs - Handsets that run complete operating system software as a platform for application developers.

See Attachment 1 for further details regarding the category into which a particular handset has been classified.
